FREQUENTLY ASKED QUESTIONS

WHAT OUR CLIENTS ARE SAYING

OUR PROCESS

1

REQUEST A CONSULT

All projects start with a free 30-minute consult call to discuss your project, budget, timeline, vision, and our services in detail. If you're doing a renovation, you must own the home before we can start pre-construction.

2

PRE-CONSTRUCTION

The next step for design+build and renovation clients is our pre-construction service.

This critical step includes an initial site visit to your property, drafting the proposal, finalizing the scope of work, creating floorplans and design plans, permitting, pre-build engineering, and beginning the design selections process.

3

DESIGN & BUILD

Once the scope of work, floor plans, design plans and budget are approved during pre-construction, a formal contract will be signed by both parties and we will move on to the renovation. Our design+build team will work hand-in-hand as we follow the supplied timeline from demolition to final install day. Our interior designer and general contractor will work together on a daily basis to answer the countless design, lifestyle, and financial decisions to give your home its greatest beauty and function.

4

DECORATE & STYLE

Offered as a stand-alone service or as the final stage in a comprehensive design+build project, interior decorating is what makes homes come alive. We love pulling together all of the finishing touches that make a room and a home, feel complete – from fully furnishing and accessorizing your space with new items or helping you better use existing pieces – we would love to help you.

We understand that designing and remodeling a home is an exciting time but can also be taxing - especially when you consider the all of the design, lifestyle and financial decisions that come with the process. Creating a home that's tailored to your family, beautiful in all the right ways, while still functional for the life you lead is part art and part experience. We offer our clients both and so much more.
